

**Rudolf Fiedler, Graduate in Business Law (FH)**

Curriculum Vitae

**Brief profile**

Rudolf Fiedler is a very experienced consultant / administrator who has a broad knowledge of IT risk management, information security and the digitization of business processes. He has detailed knowledge of IT infrastructure, especially in the area of liability risks, which can be derived from this for managing directors and board members.

Mr Fiedler works among other things as a data protection officer for various national and international companies. He is therefore familiar with group structures and processes. Due to his deep insight into different industries, he enjoys high recognition from customers and colleagues. Consulting quality, coaching characteristics and communication skills round off his profile.
